

Sneha Shanbhag

snehashanbhag02@gmail.com | +91 9113523318 | LinkedIn: sneha-shanbhag | GitHub: Sneha02Shanbhag

EDUCATION

- Canara Engineering College, Mangaluru | B.E CSE | CGPA: 9.20 2022-2026
- M.E.S Pre-University College, Sirsi | PCMC | Score: 91.5% 2020-2022
- St. Anthony's High School, Sirsi | SSLC | Score: 93.92% 2019-2020

SKILLS

- Programming Languages and Databases:** Python, SQL, Java, Mongo DB, MySQL
- Cloud and DevOps:** AWS, GCP, Azure (Pipelines), Jenkins, Maven, CI /CD Pipelines, Gradle
- Frontend & Backend:** HTML5, CSS, JavaScript, Node.js, Flask
- AI/ML:** Machine Learning, NLP, Generative AI, LLMs, RAG, Prompt Engineering
- Tools and Editors:** GitHub, VS Code, Eclipse IDE, Android Studio, Wireshark, Jenkins.

PROJECTS

LLM and RAG Based Document Question Answering 🔗

March - May 2026

Tech stack: React, Flask, Gemini API, FAISS, SentenceTransformers, Python

- Developed an AI-powered RAG-based document Q&A system enabling users to query uploaded PDF documents.
- Implemented semantic retrieval using FAISS vector database and SentenceTransformers embeddings.
- Integrated Google Gemini API with prompt engineering to generate accurate, document-grounded responses.
- Built with features including voice input, chat history, source citations, and PDF export.
- Optimized retrieval quality using semantic chunking, cosine similarity search, and context-based response.

Shield Cloud DP: Sensitive Healthcare Data Storage and Utility app for Researchers 🔗

Aug 2025 - Feb 2026

Tech stack: AWS (S3, Lambda, IAM, API), Python, Node.js, Differential Privacy(noise)

- Developed a cloud-based data privacy system for healthcare researchers using the MIMIC-III dataset.
- Implemented a classification module to segregate sensitive and non-sensitive attributes from patient records.
- Integrated Differential Privacy (Laplace noise) to protect sensitive information before storage in AWS S3.
- Utilized AWS Lambda and API Gateway to enable secure data retrieval and serverless backend processing, ensured data utility for researchers while maintaining privacy compliance.

EXPERIENCE

SuprMentr Technologies | Artificial Intelligence Intern | [Certificate](#)

(Remote) Feb - May 2026

- Developed an LLM-powered Retrieval-Augmented Generation (RAG) document question answering system.

Sasken Technologies | Java Android Framework Intern | [Certificate](#)

(Remote) June - August 2025

- Worked on Android framework components, Java, Kotlin and developed a text to speech converter app.

ACHIEVEMENTS AND CERTIFICATIONS

- AWS Cloud Quest: Cloud Practitioner** 🔗
- IEEE XPLORE:** Presented and published my mini project paper entitled "Avatar Closet: Try-on model". 🔗
- IEEE XPLORE:** Presented paper work entitled "Classification of diseases in Plants using Deep learning methods". 🔗
- Introduction to Networking:** Offered by Nvidia on Coursera Platform 🔗
- Hacker Rank SQL Certificate** 🔗 | **Hacker Rank Java Certificate** 🔗
